8 Mayoral Update

8.1 Mayoral Update - June 2022

Author: Andy Watson, His Worship the Mayor

On 16 and 17 June Peter Beggs our Chief Executive and myself attended the LGNZ Rural and Provincial Sector Meeting in Wellington with all other Mayors and Chief Executives in this sector. Firstly, it was great to meet face to face as opposed to Zoom - the questions and answers with Ministers seemed to carry much more weight.

The Three Waters presentation from Minister Mahuta and the National Party spokesperson Simon Watts was incredibly interesting. My read of the Labour presentation was that legislation will be presented with pace and while the Minister acknowledged changes made to the proposed acts/laws were as a result of Local Government Working Parties, in essence little has changed. The Water Services Bill has now proceeded to the Select Committee stage and is open for submission. This Bill allows establishment of the new water entities and transition groups to allow for the entities to be established in 2024. The Minister has however made recommendations on price harmonisation or the ability to put into law the principles of cross-subsidisation. This area will be referred to the Economic Regulator which is yet to be established and this need has always been a key focus for me. Tina Porou, the Iwi Representative and Planner based in Turangi, had earlier given a passionate iwi perspective on the Three Waters in which she suggested strongly the need for local input from Councils to continue. On that basis I asked the Minister directly if the water entities could contract as separate companies back to the Councils to deliver services. Her answer was to take this “under advisement” – in other words either this hadn’t been considered or she didn’t have an answer. Regardless as to whether Council supported the Minister, people acknowledged she was passionate and working hard towards a programme.

Simon Watts, the National Party spokesperson for Local Government, has a background in funding and finance and he gave a presentation at speed based around what people wanted to hear. “We will repeal the Three Waters legislation and we believe that the Government will act too slowly to give us the opportunity to allow this repeal”. His key themes were –

- The scale and pace of the numerous reforms are too great and Local Government is under too much pressure, i.e. there is sector fatigue. He says that the reform agendas should be right size, one-size doesn’t fit all and there needs to be local ownership retention.
- However, and this is my caution, he accepts the need for reform and the National Party will put up an alternative model, a model that has not yet been explained. When asked, he stressed that the model should be developed with Local Government. He suggests that funding and finance (presumably from Government) should be targeted to need without explaining that which in effect raises many more questions.

My read was that the address was high on wanting to please but low on specifics. He took the opportunity to make a series of other points around the National Party’s vision including the need to fix immigration to allow for growth; to put in place 30 year infrastructural planning and acknowledging that rates are not a sustainable funding mechanism for Local Government.

ITEM 8.1

Minister Parker spoke on the proposed RMA changes emphasising that they are needed because approvals/plan changes have become too expensive and take too long. No arguments from me here. The Rail Hub is a classic example of this. When I asked Minister Parker directly on who will fund the new regional structure he said that this was still to be worked out.

Of interest to the Rangitikei, Mayor Craig Little from Wairoa presented on the court case they faced with the forestry sector due to the introduction of a differential rate to forestry. The costs that they faced were high for a small council and while the court ruled in their favour there is a substantial risk faced by way of possible appeal. There is no fighting fund within Local Government to support small councils who have been targeted because they are small, which is a pity. I would suggest that we consider at least a small donation to Wairoa of \$2,000 because they have essentially done a lot of the work that we will need to do to prepare for a better implementation of our proposed roading differential for forestry.

There were a number of other presentations including LGNZ and I am hoping that they will be summarised to be available online.

Last Sunday the Taxpayer's Union roadshow rolled into Marton, requesting support to stop the Three Waters legislation. About 80 people turned up and the Taxpayer's Union basically passed the microphone to myself in what became a Q&A process. The meeting was fine, people were prepared to listen and certainly appreciative that Councillors Ash, Dalgety, Duncan and myself attended.

Over the last few weeks we have suffered heavy rain right across the district. This has seen localised roading issues and a significant event for Scotts Ferry. As the Amon's drain flooded Scotts Ferry was essentially cut off by water one-metre deep across the road. Normally access would then be possible through forestry roads but because of high winds and a number of trees down, the forestry roads had to be closed. The flooding around Scotts Ferry was a combination of local surface water and ground water. With changes in farming personnel, people did not realise locally that the available pump could be hooked up to tractors very early in the process. Council has funding to automate the pump for the future and this is something we need to follow through on.

Over the last few weeks the Government, through the Ministry of Social Development (MSD) have cut the funding for the Mayors Taskforce for Jobs available to our district. The Rangitikei was one of four trial councils for the Mayors Taskforce for Jobs – the success of the programme was astonishing and on that basis funding was rolled out to the now 29 councils. On the basis of the funding we have formed valuable relationships with iwi, we have based staff at Ngā Wairiki Ngāti Apa, becoming a centre also for Louise McCoard to work from. We will continue to fight for re-instatement of that funding. With all of the changes that Government is putting into place, the future of Local Government may well rest with a social function role and having established these relationships it would be an incredible pity if we were forced to revise them under funding constraints.

Recently I attended the Bulls & District Community Trust AGM. This is a chance for Council to give recognition to a community volunteer group that has for years raised enormous sums of money for our district. They have provided events, supported us through the pandemic and are a cornerstone of the Bulls community. I thank in particular the Chair Helen Scully and the committee.

We recognised the Samoan Independence Day on 5 June at Memorial Hall which is an annual event. It was fantastic to see the Hall that has recently been refurbished with the best part of 200 people celebrating their independence. The Church Service and fono lasted for almost 6 hours. The gathering also served as an opportunity to provide a farewell for Rev. Farani Vaa one of our local Samoan Ministers. Farani is being recalled to Samoa where he will be told where his next appointment will be, which I understand will either be in Australia or America. Farani has taken such

an active role in our community, he has supported not only the Samoan community but those in need over the last few years and will be sorely missed.

Winter time is planting time for a number of our groups. I attended a Planting Day on 18 June for the B and C dams where quite a number of people arrived with spades and got stuck in and planted 600 additional natives as part of the walkway. They are holding a second planting day on 2 July and anybody that could attend would be appreciated. It was pleasing to note that some of the people who came to help were regular weekly walkers of the reserves. Not to leave Taihape out, the Hautapu River Park Collective are holding a community planting day on Saturday 13 August where they will be looking for people to turn up with spades to plant a significant number of natives and I would encourage anybody to attend. You don't actually have to live in Taihape or Marton to attend these things.

Disappointingly under the recently released budget, funding wasn't provided for passenger rail to any great extent. This puts into doubt the continuation of not only the capital connector network Palmerston North to Wellington but also future rail use. This was an incredible surprise to the region's Mayors and myself because with the focus on climate change and the move to alternative transport being pointed to by Government we expected increased funding. I attach as part of that a letter that I have signed on behalf of Council to Ministers Robertson & Wood.

Budget 2022: Regional trains for Lower North Island

We are writing to express our surprise and disappointment that the Government has chosen not to contribute funding for a fleet of hybrid electric trains in the lower North Island through Budget 2022.

As expressed in our November 2021 letter to you, we see this proposition as a key enabler to unlock access to affordable housing in our regions, while improving connectivity to employment, education, recreation, friends and whanau.

Further, this investment is completely aligned with Government policy on transport emissions and indeed your sentiment expressed in Budget 2022, "To Invest in the future and address the challenges of climate change".

Minister, we are encouraged by your retention of half price fares for public transport until 31 August. We endorse permanently retaining this arrangement for Community Services Card holders. It makes an enormous difference to people who rely on our rail network.

To make this a worthwhile investment, however, we need to provide reliable, low-emissions transport services for the increasing number of people living across the lower North Island. We have great confidence in our business case that proposes the purchase of hybrid electric trains, and we thank the Treasury and Waka Kotahi for their assistance in putting it together. We will continue to pursue a commitment from the government to contribute to the \$760 million investment our case recommends.

We are now working against the clock to replace our fleets of 50-year-old regional rail carriages, which will soon reach the end of their working lives. The tender process for new trains must continue unabated so we look forward to engaging with you on finding ways to unlock Waka Kotahi and other funding for procurement.
