Good Afternoon Peter

As requested a response to the Taihape Community Board's questions:-

1. More information on the background of the project.

The project was implemented by the past chairperson of the Taihape Community Board, Ann Abernethy in 2021.(An extension of the idea from the Heritage Alleyway pictures in town).

We, the museum, have the resources to extend this project and were asked to carry on the vision that Ann had started by Peter Kipling-Arthur.

2. A description of any funding your organisation has received over the last year to fund projects within the community and museum.

In the past year the museum has undergone extension painting restoration on the 3 heritage buildings on site. We obtained funding from Pub Charity, COGS and WCF along with our own funds from fundraising over 13 years.

We have also converted part of the museum into a research area which required many man hours (from volunteers) and obtained funding for alterations and a professional painter to achieve. Thus our options for further funding we believe is exhausted.

Please feel free to contact me if you have any further questions

Kind regards

Frances McKeown

Taihape Museum Secretary
14 Huia Street, Taihape 4720

Hi Frances ,

Further to the email below .

Please represent your information by 13 August 2024 if you are asking the board to re look at the matter.

Regards

Peter Kipling-Arthur
